

Good Sam Nurses Stand Together: We're Ready to Act!

Good Samaritan Nurses are united in our fight for a fair contract that protects our patients, coworkers, and community.

MultiCare cannot run this hospital without the high-quality care we provide every day. We are disappointed in management's refusal to adequately address nurses' concerns at the bargaining table and encourage MultiCare to act in accordance with their core values: Respect, Integrity, Stewardship, Excellence, Collaboration, Kindness, and Joy.

We are calling on Multicare to commit to the following:

1. Sufficient staffing and equitable scheduling that allow us to care for patients and ourselves.
2. Compensation that respects the valuable care we provide for our community.
3. Keeping qualified union nurses in the Charge Nurse position.

We stand in solidarity with our bargaining team and are prepared to take further collective action if necessary.
