

I Stand With My WSNA Bargaining Team in Our Fight For a Fair Contract that Supports:

A Safe and Healthy Hospital - A focus on recruitment and retention so that well-rested nurses have the resources and time in a safe environment to provide incredible care to every person who comes through our doors.

Healthy Nurses - Maintenance of healthcare benefits and increased access to sick leave that allows nurses to care for themselves and their families. Protection for nurses from harassment, abuse, retaliation, and violence at work.

A Healthy Community - We want to make sure SCH can provide safe and equitable care to EVERYONE, regardless of race, gender identity, or economic status.

Reach out to any of our bargaining team members or to our Organizer, Crystal Doll at CDOLL@WSNA.ORG to sign on and get plugged in.
