

SAVE. PUBLIC. HEALTH.

Seattle-King County Public Health clinics are at risk of being **shut down forever**. This means nearly 80,000 patients a year will no longer be able to receive the medical treatment they need.

WHAT'S
HAPPENING

LOSS OF CRITICAL FUNDING

Public Health in Washington State has been underfunded for years due to its reliance on precarious funding sources tied to our state's upside down tax code. At Seattle-King County Public Health (SKCPH), the General Funds that support community health clinics are depleted. We have now reached a critical point, and clinics that serve some of our most vulnerable neighbors are under threat of closure.

\$23 million
TO BE CUT IN 2025

IMPACTS

Nearly 80,000 patients utilize the SKCPH clinics and mobile sites each year located in Auburn, Burien, Des Moines, Federal Way, Kent, Renton, Seattle, and more. Without funding, thousands of our neighbors who rely on these clinics could be left without care. In addition, nearly 1,000 public health professionals who've dedicated their lives to patient care are at risk of losing their livelihoods.

40%

of clients speak a language other than English.

67%

of clients are Black, Indigenous, and People of Color.

20%

of clients are experiencing homelessness.

23%

of clients are uninsured.
