

WE HEAR YOU

WSNA is hearing from many Washington nurses about working in crisis conditions.

Our member leaders and staff are working around the clock to advocate for your needs at the local, state, and national levels and are making some headway. **Below you'll find links to current resources for nurses on the front line.**

Assignment Despite Objection (ADO) forms are how essential data about the current situation on the front lines is collected. **With this data, WSNA brings your voice to be heard by those making key decisions about PPE and other resource allocations.**

Stay connected. Update your contact information by calling **206-575-7979** option 1 or email **membership@wsna.org** to ensure you don't miss any important updates.
