

WE WILL REPORT PROBLEMS

# SEE SOMETHING? SAY SOMETHING!

*As OFNHP represented workers go on strike, "traveler" contract workers and managers are trying to fill in. They often have much less experience than those they are trying to replace, some without relevant experience at all. This creates concerning conditions for our patients.*

*That is why PeaceHealth workers across multiple bargaining units will be watching these incoming replacement workers so that we can file violations with the relevant state agency to keep our patients safe.*

*If you see potentially unsafe practice due to short staffing, unprepared replacement workers, or administrators doing work they are not competent to do, please report the incident by using this QR code.*

Are they violating safety rules? ☒

Are they making mistakes? ☒

Are they following procedure? ☒

ARE CONDITIONS DANGEROUS? ☒
