

St. Joseph Bellingham Informational Picket Pledge

We are disappointed in management's refusal to adequately address nurses' concerns at negotiations and adequately recognize our contributions over the past two years. We need management to **do more and do better** to retain the nurses our community relies on for safe care and attract new nurses to St. Joe's in order to stop relying so heavily on expensive traveler nurses.

Our patients deserve safe staffing levels to ensure good outcomes!

We have lost so many of our nurses. We need a compensation package that will attract and keep skilled staff nurses at our hospital.

It is time to let our community know that we are fighting for them as well as for us, our patients, our families, and our hospital.

I'm ready for an informational picket! We issued notice to the Hospital that the bargaining unit will hold an informational picket. Invite your family, friends, and acquaintances, and bring your pets!
