because:**

**Name:**

**Unit:**

# **How important is safety to you?**

## **Important enough to take a selfie?**

On the front of this card, write why safety is important to you, your name, and your unit then take your work badge off or flip it around, take a selfie, or have someone take your photo holding this sign with no patient data in the background, and send it to WSNA. Get a friend to do it too! We are stronger when we act together!
